Around the Campus

Mr. Stone Dies

A familiar personality on the Gorham campus will be missing this fall. Mr. Ralph Stone, who was the brother of Mrs. Walter Russell, widow of the second president of the College, died on July 7.

Mr. Stone was 89. He always maintained an interest in the campus community and visited the College nearly every day during his retired years. One of his favorite pastimes was reading in the Library.

The Women's Residence Hall Handbook has been revised this summer and distributed to women students by the Dean of Women's Office.

Public Relations Director Reginald Bowden represented the College at the national convention of the American College Public Relations Association in Boston in July and the Maine Press Association in Boothbay Harbor the first of September.

Attends Seminar

Gorham State College's athletic director, Dr. Richard A. Costello, was among 50 college professors in the country selected to participate in a seminar in physical education and recreation for the mentally retarded this summer.

The seminar was held at the State University College in Cortland, New York, and is supported by a grant from the Joseph Kennedy, Jr., Foundation, which engages in a program of support of scientific research, training, service and education in the area of mental retardation.

# 50 Participate In Gorham Upward Bound Program

Fifty high school sophomores from central and southern Maine were on the Gorham State College campus this summer for a six-weeks experience in living and studying in a college atmosphere.

DAVID MILLS

The students were part of the federal Upward Bound Program and were selected on the basis of their school records which show they have higher education potential but have been underachievers because of economic, cultural and educational factors.

During their stay at Gorham State they lived in the dormitories, mingled with summer session students, and participated in activities that college students engage in.

### To Redirect

According to Program director David Mills, the 26 boys and 24 girls spent 20 hours a week in classroom situations and in seminars and 15 hours a week in culturally related activities. One purpose of the program was to redirect or orient them toward higher education.

Mills of Denver, Colorado is a graduate of Arizona State University and has done graduate work at the institution and at the University of Colorado.

A former high school English instructor in Denver, Mills has served in the Peace Corps in Colombia. Mills will devote full time to the program.

Dr. Angelo Lacognata, sociology; Miss Helen Heel, music appreciation; Dr. Robert Southworth, consultant; Dr. Richard Costello, physical education, Reginald Fickett, remedial reading; Dr. John Hanna, consultant; and Mrs. Melissa Costello.

### Counselors

The following were counselors, all Gorham State students: Mary Story, Wayne Manson, Linda Bell, Barbara Hardison, Donald Lonsway, Ruth Wolenski, John Morang, Richard Caignan, Margaret Verrill, Sharon Quinn, Priscilla Chapman, and Mrs. Deane Brown.

The high school students for the Gorham program were selected from Androscoggin, Cumberland, Kennebec, Oxford, Sagadahoc and York counties. An \$81,500 grant was approved for the project by the Office of Economic Opportunity earlier in the year.
